

**GT-C35F-2**

**UL758 Flammability Tester**

### Test Item

- ✧ Vertical flam and FT1 test
- ✧ Cable flam test
- ✧ VW1 flam test
- ✧ Horiaontal-specimen appliance-wire flam test
- ✧ Horiaontal-specimen FT2 flam test

### Feature

- ✧ Programmable touch screen controller, test program set arbitrarily
- ✧ data are directly touch screen display at a glance
- ✧ 2mm cold plate powder coating shell, beautiful, durable
- ✧ Special burner and fixtures, full compliance with standards
- ✧ Optional USB data output

### Key Specification

Standards:UL758

Volume of the chamber: 4.8 CBM

Flame height :10-200mm ( adjustment)

Flame flow control:100-1000ml / min

Flame adjustment:5-200mm water column pressure

Flame temperature measurement: up to 1050 degrees

Heating time :0-999 .9 s

Flame angle adjustment: Dedicated fixture

Burn time :0-99.99s

After flam time\after glow time: 0-999.9s

Burning time resolution: 0.01s

After flame time resolution: 0.1s

Dimensions: 2100x1350x1900mm

Weight: 190kg
